

Quality Policy

RS Diving Contractor GmbH is a leading diving contractor in the offshore business which offers various high quality services to its clients, from inspections, surveys, diving operations, to project management support and advice.

RS Diving is committed to preparing, executing and finalizing all of its projects with the highest quality standards in mind, in line with ISO 9001:2015, client agreements and applicable industry regulations and best practices.

Quality Management and Client satisfaction form an integral part of all RS Diving's operations and will always be a top priority.

RS Diving's Quality objectives are as follows:

- Ensure the highest quality standards are taken into account when forming the strategy for our projects and operations.
- A strong quality management system that forms part of RSD's Integrated Management System.
- Up to date certification against ISO 9001:2015.
- Align partners, subcontractors and clients with all quality management expectations, goals and agreements.
- Ensure the highest level of client satisfaction is met, by regularly interfacing and establishing clear targets.

To ensure the consistent and effective implementation of this Quality policy throughout its operations, RS DIVING CONTRACTOR GmbH will establish, maintain and continually improve a corporate QHSE Management System in conformance with the legal requirements.
